

Proficiency Testing Program

Information Sheet

Soil Grading & Moisture Content

Program recognition

LabSmart Services are accredited by NATA to ISO/IEC 17043, Conformity assessment – General requirements for proficiency testing. An endorsed report is issued at the completion of the program to all participants. Participation in LabSmart Services proficiency programs is accepted by NATA as meeting a laboratory's proficiency testing requirements as detailed in ISO/IEC 17025.

Program aim

The aim of the proficiency program is to provide feedback to laboratories regarding test competency relative to other peer laboratories in the construction materials testing industry. This provides valuable assurance that testing is at a satisfactory level as well as providing opportunities for improvement. Assessment of performance is based on statistically comparing each participant's results against all other participants in the program.

Sample provided.

Each participant receives a carefully packed box containing 2 samples. One sample for the particle size distribution (PSD) test and the second sample for moisture content test. Also included is a set of detailed instructions and a log sheet on which to record the results from testing.

Test method covered.

This program requires participants to performing testing to:

AS 1289.3.6.1 - Standard method of analysis by sieving.
AS 1289.2.1.1 - Oven Drying (standard method).

Equivalent test methods may be used but it is the responsibility of participants to determine if the method they use is equivalent. Moisture content must use an 'oven' drying based method.

Confidentiality

Each participant in the program is assigned a unique code which is used in the proficiency testing program report. This ensures that participant's results remain confidential.

Z – score summary

A z-score summary is provided on the LabSmart Services website after participant's results have been processed. The summary contains only z-score results and is meant as an early indication of performance prior to the release of the proficiency testing program report.

Proficiency testing program report

At the completion of the program a proficiency testing report is issued providing an assessment of the performance of each participant as well as other technical information useful for better understanding the testing process and for improving laboratory performance. A hardcopy of the final report is mailed to all participants between 4 to 6 weeks from the participants results due date. An electronic copy of the report (pdf) is available from the LabSmart Services website at this time.

Fees

The proficiency program fees are generally significantly less than the cost of similar programs. Fees are based on a per-site basis (i.e. Laboratory, Annex Laboratory, Mobile Laboratory etc.). All fees are detailed on the application form and include GST.

Additional samples per site may be requested at a discounted fee.

A further discount is offered for organisations with multiple laboratories providing payment is via a single invoice (see below).

2 to 4 laboratories	5 % Discount
5 to 8 laboratories	10 % Discount
>9 laboratories	15 % Discount

Payment options

Fees are invoiced on acceptance of an order form. Prompt payment is appreciated as it helps us offer low fees. See also our "Terms and Conditions" policy. There are a number of payment options:

- EFT
- Purchase Order
- Payment by credit card is available via an email invoice.
Please note these payments are subject to a 2.5 % finance and administration fee.

Enrolment

Completion of an order form is needed to ensure we have your current and correct contact details. Orders are welcome from both accredited and non-accredited laboratories.

Please complete a "Single Site" application form or if you wish to enter multiple sites (including Annex Laboratories) then use the "Multi-Site" application form. An order form may be obtained directly from LabSmart Services or from our website.

Prior to the commencement of the program, laboratories are sent an invitation to participate which gives details on fees and dates applicable to the current program. If you have not received an invitation, please contact us for fee and program details.

Program Coordinator

Every program has assigned a staff member who is dedicated to handling any questions or requests you have regarding this program. The name of the program coordinator may be found on the program invitation that is sent prior to conducting the proficiency program.

Additional information

Further information about how LabSmart Services proficiency programs are conducted, and the statistics used are contained in our publication "Participants Guide" downloadable from the LabSmart Services Website.
